W.9-10.3 Write narratives to develop real or imagined experiences or events using effective technique, **well-chosen** details, and well-structured event sequences.

- a. Engage and orient the reader by **setting out a problem, situation, or observation, establishing one or multiple point(s) of view**, and introducing a narrator and/or characters; **create a smooth progression of experiences or events**.
- b. Use narrative techniques, such as dialogue, pacing, description, reflection, and **multiple plot lines**, to develop experiences, events, and/or characters.
- c. Use a variety of **techniques to sequence events so that they build on one another to create a coherent whole**.
- d. Use precise words and phrases, **telling details**, and sensory language to convey **a vivid picture of the** experiences, events, **setting, and/or characters**.
- e. Provide a conclusion that follows from and reflects on **what is experienced, observed, or resolved over the course of the narrative**.

W.8.3 Write narratives to develop real or imagined experiences or events using effective technique, **relevant** descriptive details, and well-structured event sequences.

- Engage and orient the reader by establishing a context and point of view and introducing a narrator and/or characters; organize an event sequence that unfolds naturally and logically.
- Use narrative techniques, such as dialogue, pacing, description, and **reflection**, to develop experiences, events, and/or characters.
- Use a variety of transition words, phrases, and clauses to convey sequence, signal shifts from one time frame or setting to another, **and show the relationships among experiences and events**.
- Use precise words and phrases, relevant descriptive details, and sensory language to capture the action and convey experiences and events.
- Provide a conclusion that follows from and reflects on the narrated experiences or events.

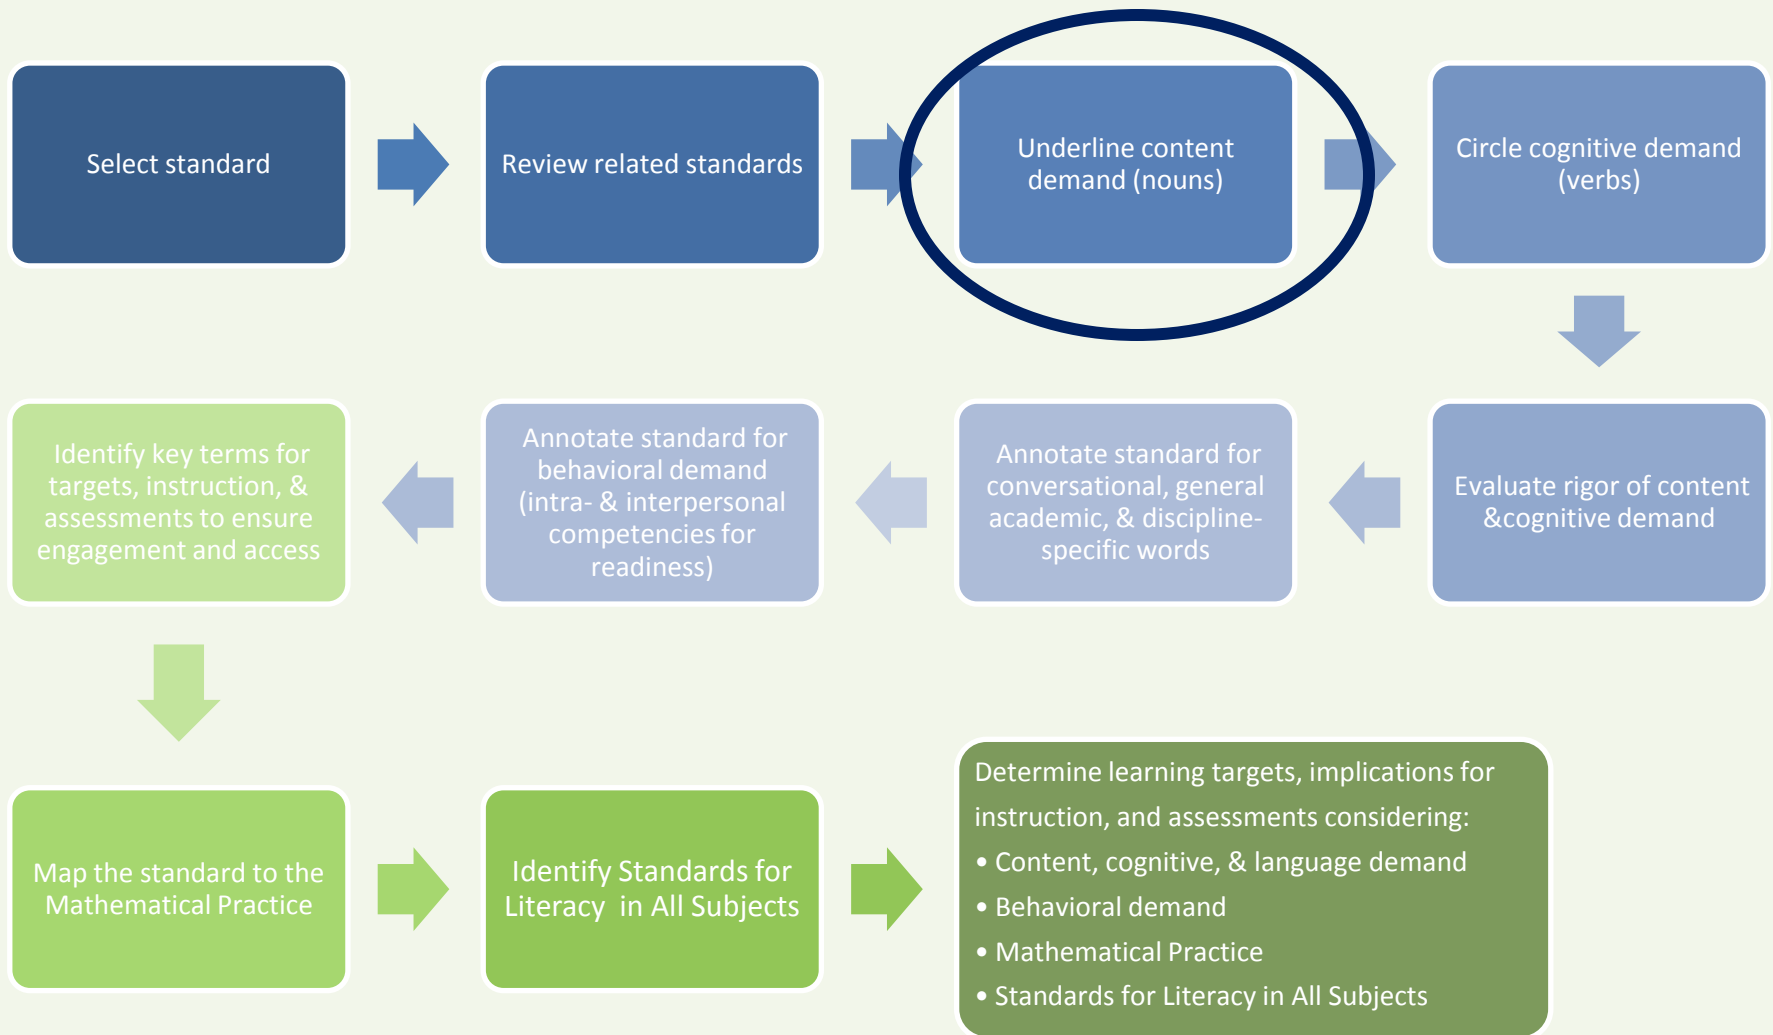

W.9-10.3 Write narratives to develop real or imagined experiences or events using effective technique, **well-chosen** details, and well-structured event sequences.

W.11-12.3 Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

- Engage and orient the reader by setting out a problem, situation, or observation and **its significance**, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events.
- Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters.
- Use a variety of techniques to sequence events so that they build on one another to create a coherent whole and **build toward a particular tone and outcome (e.g., a sense of mystery, suspense, growth, or resolution)**.
- Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters.
- Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative.

Recall & Reproduction

- Is there one correct answer?
- Can you recall it, locate it, do it, or you don't know it?

Skills & Concepts

- Is there one correct answer?
- Can you apply one concept, then make a decision before going on applying a second concept?

Strategic Thinking/Reasoning

- Is there more than one solution/approach that requires evidence?
- Do you need to provide supporting evidence and reasoning about the WHY?

Extended Thinking

- Is there more than one solution/approach that requires evidence?
- Do you need to provide supporting evidence and reasoning about the WHY?
- Do you need to use multiple sources/data/texts?
- Do you need to apply knowledge to create something new?

College and Career Ready

The level of achievement a student needs to be ready to enroll and succeed—without remediation—in credit-bearing first-year postsecondary courses. And by postsecondary we mean primarily two-year or four-year institutions, trade schools, and technical schools. Today, however, workplace readiness demands the same level of knowledge and skills as college readiness.

ACT, 2008

Behavioral Demands

Intrapersonal Competencies

Involve self-management, including the ability to regulate one's behavior and emotions to reach goals

Interpersonal Competencies

Involve expressing information to others, as well as interpreting others' messages and responding appropriately

Two Components of the CCSSM

Standards for Mathematical Practice

Standards for Mathematical Content

Centering Mathematics in Wisconsin

The Standards for Mathematical Practice

describe varieties of expertise that mathematics educators at all levels should seek to develop in their students.

Characteristics of Mathematically Proficient Students

Standards for Mathematical Practice

1. Make sense of problems and persevere in solving them

...start by explaining the meaning of a problem and looking for entry points to its solution

2. Reason abstractly and quantitatively

...make sense of quantities and their relationships to problem situations

3. Construct viable arguments and critique the reasoning of others

...understand and use stated assumptions, definitions, and previously established results in constructing arguments

4. Model with mathematics

...can apply the mathematics they know to solve problems arising in everyday life, society, and the workplace

Standards for Mathematical Practice

5. Use appropriate tools strategically

...consider the available tools when solving a mathematical problem

6. Attend to precision

...communicate precisely using clear definitions and calculate accurately and efficiently

7. Look for and make use of structure

...look closely to discern a pattern or structure

8. Look for and express regularity in repeated reasoning

...notice if calculations are repeated, and look for both general methods and for shortcuts

Literacy in All Subjects

CCSS.MATH.NF. 4.1

Explain why a fraction a/b is equivalent to a fraction $(n \times a)/(n \times b)$ by using visual fraction models, with attention to how the number and size of the parts differ even though the two fractions themselves are the same size. Use this principle to recognize and generate equivalent fractions.

LITERACY STANDARDS

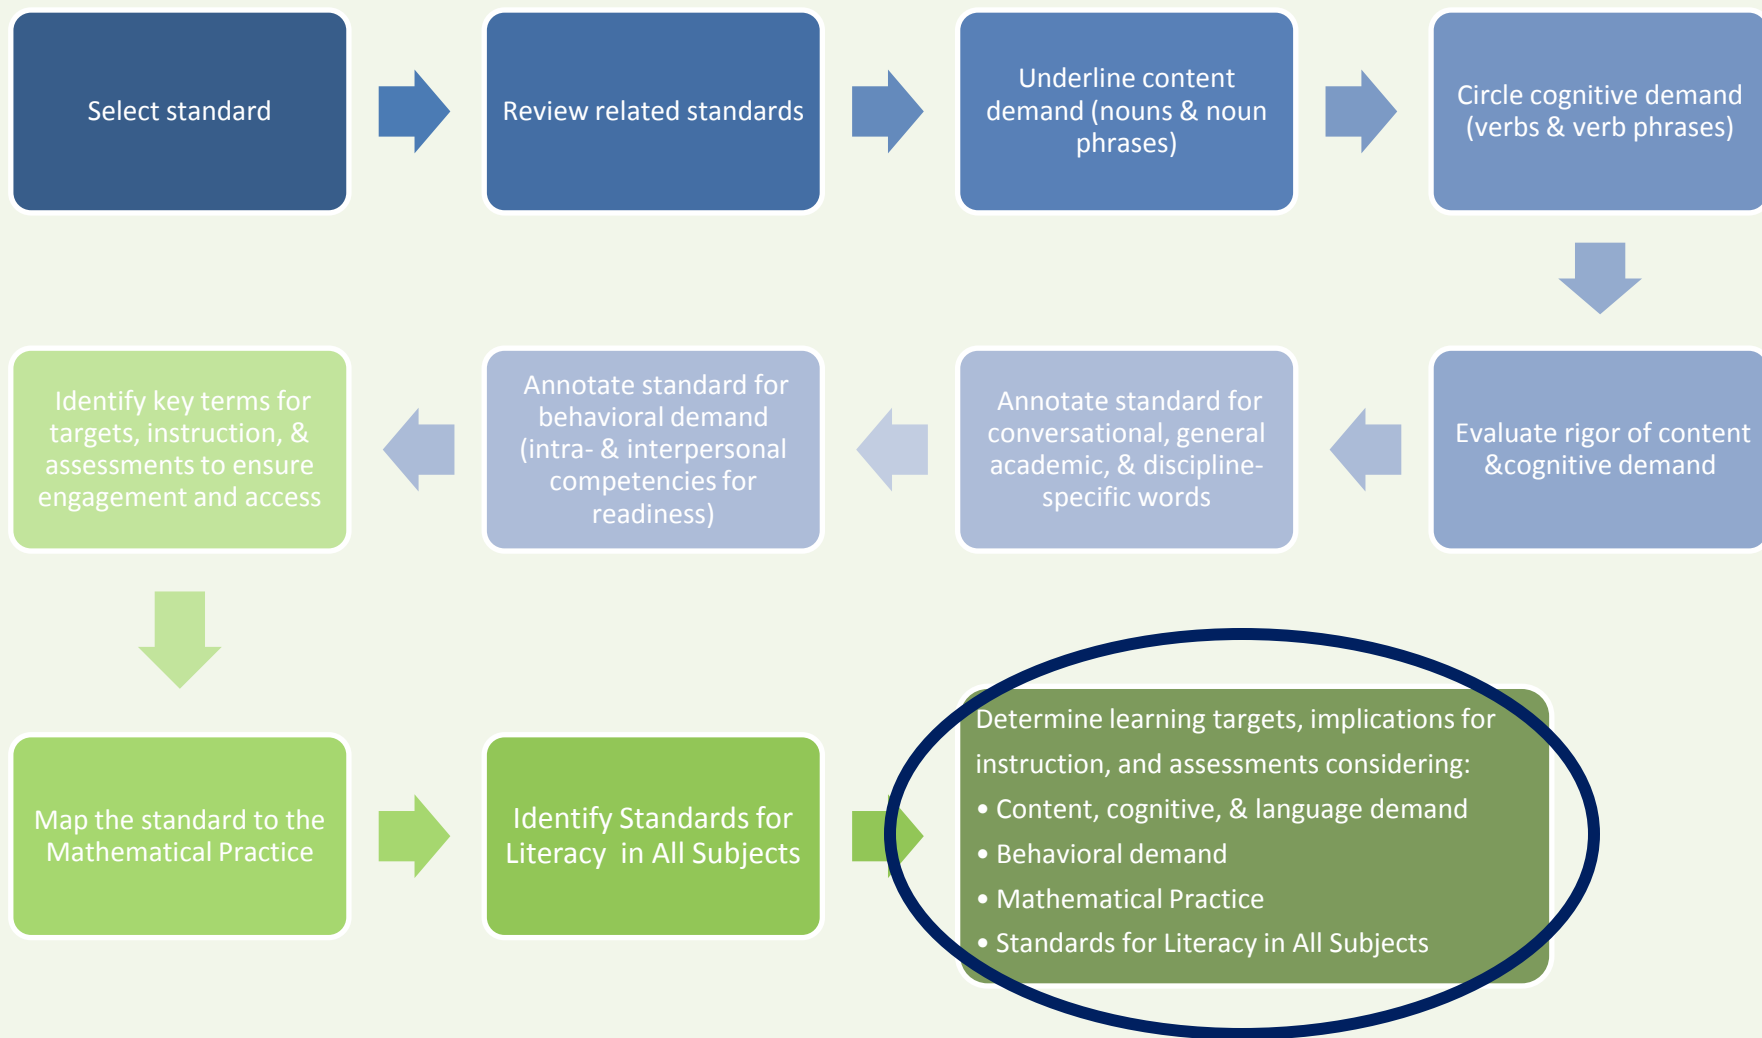

SL.4.1 Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher led) with diverse partners on *grade 4 topics and texts*, building on others' ideas and expressing their own clearly.

L.4.4.a Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 4 reading and content, choosing flexibly from a range of strategies.

- a. Use context (e.g., definitions, examples, or restatements in text) as a clue to the meaning of a word or phrase.

Lesson, Unit, and Course Plans

Course Plan

This course plan template outlines a process for creating a plan for a course of instruction that is consistent with Wisconsin education initiatives – Wisconsin Standards, RtI, Educator Effectiveness, college and career readiness, and Universal Design for Learning. It outlines essential components of instructional design – standards-based curriculum, high quality instruction, and balanced assessment – which supports the diverse learning needs of the range of learners within a classroom. A course plan consists of a coherent series of units where concepts and/or skills advance and deepen over time for all students. A course plan is implemented throughout the school and across the district.
